ABOUT THE CONFERENCE

Indian financial market is highly integrated with world financial markets making it dynamic and complex, thus creating new demands and growth opportunities.

Capital Markets have shown tremendous growth in the post Liberalization era. It remains one of the most resilient globally and poised to be one of the top destinations for domestic and global businesses to expand and invest in. As the global economy moves towards imminent recovery, India has shown extraordinary strength to bounce back with greater stability and sustainability. Raising capital is a strategic priority across India and role of Capital Markets has assumed far greater importance and urgency. The International Conference on "Capital Market and Finance" aims to assemble investors, practitioners, policy makers and other stake holders of the Indian capital market eco-system to provide them an excellent platform to share views, experiences and research results on every aspect of the market such as Governance in Security Market, Investor protection; Vulnerability of Capital Market to FII Inflows, PSU Divestment, Role of Pension Fund, and Need for SME Exchanges.
