An Online Certificate Course on
GENDER INCLUSIVE PUBLIC POLICY

RELEVANCE OF THE COURSE

Gender inclusion is a concept that encompasses the notion that all services, opportunities, and establishments are open to all people, and that male and female stereotypes do not define societal roles and expectations. Statistics show that prevalent challenges exist, and we must address and eradicate them before our society can achieve true gender inclusion. Promoting gender-inclusive policies through the creation of demonstrative examples of the concept in action is of the utmost importance as we strive toward this goal.
