Feedback And Suggestions:

+ The Syllabus Is Backward and Doesn't Accommodate Mathematical Applications Which Is Highly Relevant for Economics. Basic Knowledge Is Only Provided in the Courses Which Puts the Student At a Great Disadvantage in National Competitive Exams for Masters. Extremely Poor and Insufficient in Subject Knowledge Since First Semester Especially in Comparison to Same Course in Delhi University. Doesn't Contain Practical Application of Syllabus, Not Even Basic Problems. Hasn't Even Done a Single Problem on Cobb Douglas Or Min, Max Questions Or Lexicographic Preferences W.r.t Utility Functions Which Should Be Mandatory for First Year Microeconomics Paper. Provides Same Subject Knowledge as Studied in 12th Grade

+ Overall, the Course Is Very Good as It Very Pragmatic and Interesting.

+ This Course Us Good for Higher Studies and Improved Learning Skills.

+ The Entire Course Is of Pure Statistics Which Was Not Expected Since I Have Taken Applied Stat. But that Is Not the Education Recieved. No Practicals/lab Work Was Done in the Enitre 2 Years. Sem 2 Lab Portions Was Taken 2 Days Before Exam and Sem 4 Lab Work Hasn't Even Started. All the Data Analytics Subjects Are Theory Based Which Fails the Purpose of This Course.

+ Name of the Course Is Applied Statistics But the Syllabus Is Pure Theoretical. There Is No Difference Between the Syllabus of Pure Statistics Departments of Other Colleges and Our Syllabus Which Is Said to Be Application Level. Very Poor Faculty Members Too.

+ Not At All Satisfied with the Syllabus Which Is Completely Theory Based and Useless Without Practical Implementation.

+ Practical Implementation ,job Skills
