Medical Coding

The course aims to provide a strong foundation in human anatomy, medical terminology, and standardized coding systems such as ICD-10-CM. It also intends to enhance employability by integrating practical coding skills with basic knowledge of medical billing workflows and professional communication.

After completion of the course the students will be able to :

1. Apply knowledge of medical terminology and human anatomy to accurately interpret clinical documentation for coding purposes.
2. Perform accurate ICD-10-CM coding across various disease conditions in accordance with official guidelines and industry standards.
3. Demonstrate a basic understanding of CPT, HCPCS, and medical billing processes to support healthcare documentation and revenue cycle management.*Mention whether Remember/ Understand/ Apply/ Analyse/ Evaluate/Create as Cognitive levels

**Duration
60 Hours**

Joint Certification course By
